Fairwaymaster Mini	4	4.8						L	M	M½	N	N½		
Step Hi-Mag	7	4.3	G½	H	I									

The spreader settings are guidelines only. The spreader should be calibrated prior to application to ensure accuracy. The spreader settings are based on a walking speed of 5 km/hour. Walking faster or slower than 5 km/hour will alter the spread width and application rate. Exact rates are dependent upon the spreader itself and the accuracy of the person operating it.
