

Product Range information

Greenmaster Liquid[®]

2-6
WEEKS

BRAND DESCRIPTION

Greenmaster Liquid are premium liquid fertilizers with T-Max technology for enhanced foliar and root nutrient uptake.

FORMULATION TYPE

Liquid

BRAND ADVANTAGES

1. Rapid turf reaction
2. Works in low temperatures
3. Contains T-Max for enhance nutrient uptake
4. Foliar and root uptake
5. Consistent colour with no rapid tail-off
6. Flexible application rates
7. Tank-mixable
8. Extremely safe to use due to quality nutrient sources and low Salt Index
9. Wide choice of analyses for the correct nutrient input

TECHNOLOGY

Growing success

TECHNOLOGY STATEMENT

The Greenmaster Liquid range consists of seven high quality fertilizer solutions that cover all turf feeding requirements and seasons. TMax contains chelating agents, nutrient uptake accelerators and vitamins. These components optimize both foliar and root uptake for top quality turf. All products within the range contain chelated trace elements to boost growing performance and product efficacy stimulant, to provide additional NPK ratios and a total liquid treatment in one convenient application.
